

## Criminal Defence Lawyers Prince George

Criminal Defence Lawyers Prince George - Technology-related companies turn to our legal firm specializing in technology law for services and advice. The growing field of technology law is essential in various fields, such as e-commerce, computer hardware and software, telecommunications, multimedia, pharmaceuticals, biotechnology, television and film, interactive media, broadcasting, and Web-related industries. Today's technology companies need professional recommendation suited to their unique requirements.

Our firm focuses on technology law in the field of mergers, private and public financings, acquisitions and divestitures, licensing agreements and technology agreements. Clients seek out our services and our technology law experts for certain advice associated to contract negotiation and other various transactions. Other services include intellectual property and employment audits, the preparation of agreements, like consulting and employment agreements, and agreements connected to technology distribution and advertising. Intellectual property protection concerns trade secrets, patents, copyrights, trade-marks and industrial designs. E-commerce issues encompass infrastructure and website development, maintenance agreements and internet access.

Our technology law practitioners work in conjunction with Commercial, Securities, Intellectual Property, Labour & Employment, and Tax & Trusts lawyers to give advice to technology clients on different corporate problems. Technology law experts work with private venture funds which give capital to emerging technology businesses.

In infringement situation, our litigation lawyers represent our clients interests before all levels of court related to trade-marks, trade secrets, patents or copyrights. Before the situations escalate, our teams of litigation lawyers act fast to solve financing, employment, intellectual property, and contractual disputes. The early identification of possible matters is a top priority. To prevent problematic matters associated to unjust trade practices and false and misleading marketing, clients get recommendation about the legalities of advertising and the correct marketing of products and services. Advice is given on such legal matters as trade-mark registration and use, privacy, labeling and packaging, as well as comparative advertising.
