Your firm's reputation is maintained and built on its foundation, its brand. Our company understands that a company's trade-mark is amongst its most-valuable assets. From advertising to product development to package design, a significant amount of resources are used in developing and protecting a firm's brand.

Our office offers all services related to trade-marks. We file and prosecute trade-mark applications and we are able to conduct trade-mark searches in order to make sure that the trade-mark is obtainable for use and registration. And we actively enforce trade-mark rights versus infringement. Our office can likewise assist with worldwide trade-mark applications through our established global network of trade-mark agents.

We provide trade-mark validity and infringement opinions, and trade-mark availability searches and registrability searches, in addition to offering trade-mark registrations, comprising the prosecution and preparation of trade-mark applications. We also oversee international trade-mark applications.

A trade-mark opposition includes the cancellation proceedings of registrations, for non-use or different reasons and opposing the registration of confusing trade-marks by different entities. When infringement results in litigation, our trade-mark litigators will act for our clients through infringement and domain name disputes.
