

## Impaired Driving Prince George

Impaired Driving Prince George - Patents are often the most valuable assets that a company could have. It is vital that the patent portfolio is secured and maintained to make certain that the company is able to continue to expand and even succeed.

As amongst the respective and largest patent teams within the country, we have broad experience in procuring patents and protecting them. Moreover, we assist clients leverage patent matters with efficiency and skill.

We have lots of various professionals in our team, comprising technical consultants, patent lawyers and patent agents. A lot of the consultants we have at our disposal have either an engineering or scientific Ph.D. Some examples of the areas wherein we have skill are chemical, aerospace, biomedical, civil, computer science, electrical, metallurgy and material science, industrial, biochemistry, mechanical, biotechnology, biomechanics, food science, chemistry, genetics, endocrinology, life sciences, immunology, microbiology, neuropsychology, molecular/cellular biology, neurophysiology, organic chemistry, pharmacology, toxicology, physiology and physics.

Using our wide variety of technical skills together with a combination of acute business acumen, we can provide a comprehensive and clear understanding of different technical complexities. Our experience, expertise and skills will enable us to be able to help our clients achieve optimal patent asset value. We are there to offer effective recommendation and assistance regarding licensing agreements and the negotiation of technology transfer as well as the enforcement of intellectual property rights.
