

## Immigration Attorney Prince George

Immigration Attorney Prince George - There is an increasing concern about several privacy problems today and the complexity of new privacy legislation. The individuals working in the field, plus the organizations included in information technology and biotechnology have various legal needs. So do those who depend on technology to secure a competitive advantage for their business, or simply to be able to function in everyday operations. Our Technology, Privacy and Intellectual Property lawyers help clients in maximizing the use of intellectual property in their business operations. Our goal is to create value for our clients.

We provide a full range of legal services dealing with problems related to biotechnology, intellectual property and privacy technology from an international to a local basis. Our services consist of trade-marks, copyright, privacy, domain names, e-commerce, commercialization, intellectual property, information technology and operational problems.

Intellectual Property Assistance:

- Copyright
- Industrial Designs
- Licensing
- Trade Secrets
- Trade-marks

We help clients in enforcing, obtaining and maintaining intellectual property rights on a national, international and regional scale. Our clients come from different industries like for example entertainment, automotive, telecommunications and manufacturing.

Technology Services:

- e-commerce initiatives
- protection, development, licensing, distribution and sale of technology
- acquisition of technology

To both suppliers and users of technology, we advise lots of venture capitalists and financial institutions in structuring loan transactions. We can also help companies with their confidentiality agreements, computer system and Internet usage policies, outsourcing arrangements, consulting agreements, employment agreements, source code escrow, strategic alliances and joint ventures.

Privacy Services:

We assist employees, organizations, suppliers and contractors to ensure compliance with privacy legislation. We help organizations with their personal information management systems: drafting comprehensive privacy procedures and policies; advising with respect to the collection, disclosure and use of personal information. We evaluate Privacy Impact for clients' organizations or businesses.
