

## Lawyer in Prince George

Lawyer in Prince George - Our office offers advice and services in addition to representing our clients in both private and public sectors whose activities are subject to environmental regulation. We have a highly specialized environmental skill in a broad range of legal disciplines. Our specialized environmental law practitioners work closely along with professionals in corporate/commercial law, municipal law and litigation.

We know that our clients must balance sound environmental practices with solid business decisions. We offer project management and strategic environmental advice. We act as counsel to proponents of major infrastructure projects throughout environmental assessments.

Our firm provides legal advice and offers regulatory intervention training which goes beyond what various offices are given by the majority of offices. Through field rehearsals and seminars, we prepare clients for likely regulatory intervention to be able to help avoid enforcement proceedings.

We provide counsel to groups making corporate transactions of different size and involves the sale and purchase of shares, assets, and associated finances.

The assistance we give in brownfields redevelopment comprise tax incremental financing; initiating and processing all required applications and approvals; engaging and overseeing consultants to prepare remedial action plans; Site Specific Risk Assessments and/or Records of Site Condition; and liaising with municipal officials and Ministry of Environment.

Our lawyers offer creative and practical solutions for dealing with regulatory inspections and investigations. We help clients to prepare for probable future investigations. Our knowledgeable litigators act for clients charged under provincial, federal and municipal environmental and associated legislation.
